

Governor Bentley, We, the undersigned citizens, respectfully request that you use your Executive authority and position to work proactively to repeal the unproven, experimental program known as Common Core State Standards Initiative (aka "College and Career Readiness Standards"). We believe that CCSSI takes away state sovereignty & autonomy and gives control of Alabama education to the U.S. Department of Education, and that its adoption by the Alabama State Board of Education must be rescinded.

(Must be written neatly to be read and confirmed.)
